

Central CT Lutherans for Life opposes HB06618

The \$2 million being proposed by the Governor for this program should not be permitted and this bill should not pass.

- CT taxpayers must not be forced to pay for a service they believe is the taking of an innocent human life and is totally immoral.
- CT taxpayers must not be forced to pay for any service for non-CT residents.
- CT should not become a destination state for free abortions.
- CT residents have many underfunded needs that should be addressed instead, such as homelessness and mental health.
